

Lehigh Engineering, LLC

Lehigh Engineering, LLC provides a wide variety of professional services, including civil, environmental and sanitary engineering, engineering surveys and mapping, planning and municipal management. Lehigh Engineering's work includes a broad range of assignments for commercial, industrial and governmental clients throughout the region.

We have established a record of credibility and excellent working relations with federal state and municipal regulatory agencies. We work with agencies such as the Pennsylvania Department of Environmental Protection (PADEP), the Delaware River Basin Commission, the U.S. Environmental Protection Agency (EPA), the Pennsylvania Department of Transportation, the Soil Conservation Service, the PA Department of Community Affairs and the US Army Corps of Engineers. Our understanding of regulatory environments has meant faster approvals for our clients.
